Pathanamthitta, Kerala, India

SUMMARY

Aspiring Full-Stack Developer and recent BCA graduate with practical experience in Python, JavaScript, Java, and C#. Proficient in developing innovative and scalable software solutions through academic and personal projects. Passionate about cybersecurity, software architecture, and AI. A strong communicator, creative problem-solver, and collaborative team player. Actively seeking entry-level developer roles or internships to apply technical skills and contribute to meaningful projects.

EXPERIENCE

Member – Web Management Wing, CMS Cybersecurity Council Oct 2024 – May 2025

- Contributed to campus-wide cybersecurity and web management initiatives.
- Supported awareness campaigns and technical activities under the Cybersecurity Council.

PROJECTS

Connectly – AI Multilingual Chat App [GitHub](#)

Flask + Socket.IO chat platform with AI-driven live translation, secure authentication, and a fully responsive Bootstrap UI.

Downloads Folder Organizer – .NET MAUI [GitHub](#)

Cross-platform file management utility in C#/.NET MAUI with Fluent Design UI, real-time logs, and one-click undo operations.

Metadata Timeline Generator [GitHub](#)

Digital forensics tool using Flask + SQLite to extract, analyze, and visualize metadata with interactive charts and timelines.

Marvel Multiverse Timeline [Live](#)

Immersive web app mapping MCU timelines with AI-generated synopses, timeline filters, and dynamic dashboards built in Tailwind + JS.
